

Emergenetics Team Leader Workshop

Emergenetics Team Leader Workshop aims to teach team leaders to apply Emergenetics at work, to better manage their teams and to enhance collaboration and productivity.

KEY LEARNING OBJECTIVES

- Understand the implications of a cognitively diverse team
- Acquire skills to leverage the brilliances of a cognitively diverse team
- Discover blind spots and acquire strategies to overcome them
- Learn to use the Emergenetics+ App for team work

DURATION 2 days
CLASS SIZE Min. 4 pax Max. 20 pax
AVAILABLE IN Singapore

PRE-REQUISITE

Participants must have received their Emergenetics Profile through a prior workshop, or a one-to-one consultation with a Certified Emergenetics Associate.

OVERVIEW

The Emergenetics Team Leader Workshop is a two-day hands-on workshop that allows participants to deep-dive into the practising Emergenetics at work.

Designed for team leaders, the workshop aims to familiarize participants to the Whole Emergenetics approach (WEApproach) in managing teams. Through the use of Emergenetics Group Reports, participants will understand how to better leverage the cognitive diversity of their teams, as well as identify intervention strategies for team cohesion.

PROGRAMME OUTLINE

- Deep-dive into the 7 attributes and profile types - What this means for team leaders
- Interpret group reports, including the Group Profile, Dot Graph Report and Spectrum Report
- Emergenetics "Live Spectrum" and what this means for team members
- Emergenetics+ Application for group work - Putting a group report together
- Emergenetics+ Application for group work - Understanding group dynamics and identifying blind spots
- What happens if... Develop strategies to take if:
 - ❑ There is a missing attribute in the team
 - ❑ There is an outlier in the team
 - ❑ You are the outlier in the team
- Giving and receiving positive and negative feedback
- Participants will receive templates, worksheets and frameworks that can be applied to various work scenarios
