

Inc. Magazine Unveils 36th Annual List of America's Fastest-Growing Private Companies

Emergenetics International Makes Inc. 5000 for Seventh Consecutive Year

DENVER, August 18, 2017 -- *Inc.* magazine ranked Emergenetics International, at number 4,075 on its 36th annual Inc. 5000, an exclusive ranking of the nation's fastest-growing private companies. This is the seventh time that Emergenetics has been named to the Inc. 5000, an accomplishment that only two percent of listed companies have achieved.

"We are honored to be named to the Inc. 5000," said Emergenetics CEO, Dr. Geil Browning, PhD. "I am very proud of our team at Emergenetics. It would not have been possible to make this list for seven consecutive years without the dedication, commitment and brilliance of our global staff and partners. We are honored to be named alongside such an impressive list of companies."

Emergenetics grew nearly 68 percent in the past three years as the company continues to expand its services as well as its national and international footprint. Established in Denver, Colorado in 1991, the company, which also has regional headquarters in Singapore and Ireland, has representation on five continents and more than 75 countries.

The Inc. 5000 represents the most comprehensive look at the most important segment of the economy—America's independent entrepreneurs. Companies such as Yelp, Pandora, Timberland, Dell, Domino's Pizza, LinkedIn, and many other well-known names gained early exposure as members of the Inc. 5000.
